

The 30-Day Glow Calendar

Printing optional. Following it, not optional.

How to read this

- **Print this file** (skills: pandoc → PDF, see the pack README).
- One row per day. Check the box. Log the two scores.
- **Scores:** Tingle and Redness, 0–3 each (0 = none).
- **AM / PM columns** tell you what kind of night it is: B = barrier only, P = PDRN night, R = reset night.

Tingle: 0 none → 1 mild tingle → 2 noticeable → 3 burning (STOP) **Redness:** 0 none → 1 slight → 2 visible → 3 inflamed (STOP)

WEEK 1 → RESET (no actives, no PDRN)

Day	Date	AM	PM	Morning routine	Night routine	Tingle	Redness	Done
1		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
2		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
3		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
4		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
5		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
6		R	R	Rinse → Moist → SPF	Cleanse → Moist			~
7		R	R	Rinse → Moist → SPF	Cleanse → Moist			~

Week 1 notes: Stripped everything. Logged baseline. Run the Barrier Audit on Day 7 → score: __/10

WEEK 2 → RESET → REBUILD

Day	Date	AM	PM	Notes	Tingle	Redness	Done
8		R	R	Last nothing-new day			~
9		R	R	Intro Trial #1: ceramide moisturizer			~
10		R	R	Trial #1 day 2			~
11		R	R	Trial #1 day 3			~
12		R	R	Trial #1 day 4			~
13		R	R	Trial #1 verdict			~
14		R	R	Rest from new products			~

Barrier Audit (Day 14) → score: __/10 (should be ≥ 5)

WEEK 3 → REBUILD

Day	Date	AM	PM	Notes	Tingle	Redness	Done
15		R	R	Intro Trial #2: soother (B5/centella)			~
16		R	R	Trial #2 day 2			~
17		R	R	Trial #2 day 3			~
18		R	R	Trial #2 day 4			~
19		R	R	Trial #2 verdict			~
20		R	R	Add night occlusive			~
21		R	R	Rest			~

Barrier Audit (Day 21) → score: __/10 (must be ≥ 7 to activate PDRN)

WEEK 4 → ACTIVATE (PDRN begins, 2 nights)

Day	Date	AM	PM	Notes	Tingle	Redness	Done
22		→ P		First PDRN Sandwich → 2–3 drops			~
23		→ B		Barrier only			~

24	⌘ B	Barrier only	⌘
25	⌘ P	PDRN Sandwich #2	⌘
26	⌘ B	Barrier only	⌘
27	⌘ B	Barrier only	⌘
28	⌘ B	Barrier only	⌘

Week 4 notes: Any stinging? If yes ⌘ back to Reset, PDRN waits. If mild ⌘ use Buffer 1 (PDRN after moisturizer).

WEEK 5 ⌘ RAMP TO 3 NIGHTS

Day	Date	PM	Notes	Tingle	Redness	Done
29		P	3 nights this week			⌘
30		B				⌘
31		P				⌘
32		B				⌘
33		P				⌘
34		B				⌘
35		B				⌘

WEEKS 6⌘8 ⌘ RAMP & REVIEW

Week	PDRN nights	New products	Milestone	Done
6	4 nights (Mon/Tue/Thu/Fri)	None	Photos week 6	⌘
7	5 nights	Optional: overnight PDRN mask	Compare week 4 vs 7	⌘
8	5 nights	Optional: gentle acid 1Ã—/week	Final audit + verdict	⌘

The Day-30 review

Answer these honestly:

1. **Barrier Audit score now: /10 (vs.Â baseline)**
2. **Tingle trend:** better / same / worse
3. **Redness trend:** better / same / worse
4. **Glow trend (compare photos, not memory):** better / same / worse
5. **Did I introduce more than one new product at a time?** yes / no
6. **Did I skip PDRN nights randomly?** yes / no

What to do next:

- Score **8⌘10** and glow **improved** ⌘ move to Phase 4 Maintain. Consider adding retinol on a separate night.
- Score **6⌘7** ⌘ hold the current stack another 30 days. Donâ€™t add anything.
- Score **⌘5** ⌘ the barrier, not the PDRN, is the project. Full Reset. Re-read the Repair Playbook.

The one-page habit

If you do nothing else with this pack, do this:

Every night: cleanse ⌘ (PDRN 2⌘3Ã—/week) ⌘ moisturizer ⌘ sleep. Every morning: rinse ⌘ moisturizer ⌘ SPF.

Consistency for 8 weeks beats a perfect routine for 5 days. The glow people chase on their feed is just *this*, repeated.
